WHAT IS FULL ARCH IMPLANT IN ASHFORD?

Full Arch Implant is an advanced solution for replacing a full arch of missing teeth using dental implants for a strong, natural-looking and long-lasting smile.

A PERMANENT SOLUTION

Unlike removable dentures, Full Arch Implants are securely fixed using 4 to 6 implants per arch, providing exceptional stability and comfort.

BENEFITS OF FULL ARCH IMPLANTS

Restore full function and confidence

Natural look and feel

Fixed and secure – no slipping

Long-lasting results with proper care

Helps maintain jawbone and facial structure

WHO IS IT FOR?

Ideal for patients with multiple missing or failing teeth, or those who wear uncomfortable dentures.

**STRONG.
STABLE.
BEAUTIFUL.
BUILT TO LAST.**

THE FULL ARCH IMPLANT PROCESS

1

CONSULTATION

We assess your oral health and discuss your goals.

2

PLANNING

Advanced 3D scans create a personalised treatment plan.

3

IMPLANT PLACEMENT

4 to 6 implants are surgically placed into the jawbone.

4

TEMPORARY TEETH

A temporary fixed bridge is attached – so you leave smiling!

5

FINAL RESULTS

Your custom-made permanent teeth are fitted for a perfect, natural smile.

DID YOU KNOW?

Full Arch Implants can often be completed in fewer appointments, with same-day temporary teeth in many cases.

EAT, SPEAK & SMILE WITH CONFIDENCE

Transform your life with a permanent, natural-looking smile with Full Arch Implants in Ashford.
